مجموعة خواتم الخطوبة

MADE FOR YOU, STONE BY STONE

A ring that is chosen, not picked off a shelf.

A ROAYA diamond is known by its light. Every stone is selected by hand from dozens of candidates, and we turn away any diamond that looks quiet or lifeless, so yours carries a living sparkle in every light.

We never use commercial cuts. We choose the cut that returns the most light, not the one that saves weight. Every centre stone is certified, and our lab-grown diamonds match the finest natural diamonds in composition, brilliance and hardness.

Our gold is solid and substantial, settings are built wide and secure, and every prong is set to hold your diamond for generations.

ألماسة رؤيا تنعرف من لمعتها. نختار كل حجر يدويا من بين عشرات الأحجار، ونرفض أي ألماسة صامتة أو باهتة، عشان توصلك ألماسة حية تلمع في كل ضوء.

قص الألماس عندنا مو قص تجاري. نختار القص اللي يعطي أعلى أداء للضوء، مو القص اللي يوفر في وزن الحجر. وكل ألماسة رئيسية معها شهادة معتمدة، والألماس المخبري عندنا مطابق للطبيعي الفاخر.

الذهب عندنا ثقيل ومتين، والقاعدة ثابتة، والمخالب مثبتة بإحكام. هندسة تصنيع لقطعة تورث لأجيال.

1

Choose a design and note its code.

اختاري التصميم واحفظي رقمه

2

Choose lab-grown or natural diamond.

ألماس مخبري أو طبيعي

3

Choose white, yellow or rose 18K gold and your size.

لون الذهب والمقاس

4

We hand-select your stone and send you a video before setting.

نختار حجرك ونرسل لك فيديو

Launch Offer · SAR 2,000 off every design

Valid until 30 November 2026. Prices shown already include the discount.

عرض الإطلاق: خصم 2,000 ريال على كل التصميمات حتى 30 نوفمبر 2026

Images show each design for reference. Every piece is made to order: carat weight, measurements, metal and setting details can be adjusted to your wishes. Carat weights and measurements are approximate. Prices are for lab-grown diamonds in 18K gold, in Saudi riyals. After the offer ends, the full prices apply. Natural diamonds are quoted on request.

What makes a ROAYA diamond different

Light you can see across a room

We judge every diamond by how it flashes in real life, under daylight, home light and evening light, not only by its grading report. A stone that looks quiet or lifeless never reaches you.

نحكم على الألماسة من لمعتها في الحقيقة، في ضوء النهار والبيت والسهرة، مو بس من الورق. وأي ألماسة صامتة ما توصلك.

Icy white colour

We favour the whitest colour grades, D to F, for a bright, crisp stone with no warmth or tint.

ألوان من أعلى درجات البياض، D إلى F، ألماسة ثلجية بدون أي اصفرار.

Certified and documented

Every centre stone comes with a certificate from a recognised laboratory, so its quality is on paper as well as in your hand.

كل ألماسة رئيسية معها شهادة معتمدة توثق جودتها.

Built to be inherited

Solid, substantial 18K gold, wide and stable settings, and prongs secured to hold your diamond for generations. Precision engineering, not just manufacturing.

ذهب ثقيل، قاعدة ثابتة، ومخالب محكمة. هندسة تصنيع لقطعة تورث لأجيال.

Exceptional clarity

Our centre stones are chosen in the top clarity grades, VVS to VS, so they are clean to the eye and let light travel through without interruption.

نقاء من أعلى الدرجات، VVS إلى VS، صافي للعين ويخلي الضوء يعبر الحجر بدون ما يتكسر.

Never a commercial cut

We choose the cut that returns the most light, not the one that saves the most weight. Proportions are checked stone by stone to avoid dark centres, windows and bow-ties.

قص غير تجاري، نختار القص اللي يعطي أعلى أداء للضوء، ونتفادي الظلال والمناطق الباهتة في النص.

Lab-grown, matched to the finest natural

Our lab-grown diamonds are real diamonds, identical to natural in composition, hardness and fire, selected to the same luxury standard.

الألماس المخبري عندنا ألماس حقيقي، مطابق للطبيعي الفاخر في التركيب والصلابة واللمعة.
